Authentic flavors

With 11 shops and after 15+ years in business, this former Patagonian ice cream brand grew to become a coffee shop and a kitchen after developing different lines of genuinely made successful products —specialist coffee, dough bread, sandwiches and artisan chocolate, to eat-in or take-away— evolving the brand's universe.

We helped Del Viento to develop its business in terms of both branding and logistics, and to design products that are marketable. Sangha generated the tone, voice and content narrative using clear core messages that correspond with each line of products.

The wind always leaves a mark

The wind in the Patagonia often exceeds a hundred kilometres per hour, igniting fire in the hearts of those who dare to venture there. It always leaves a mark. Every product of the brand is crafted in Patagonia, the south of Argentina. Ice cream, roasted origin coffee, artisan chocolate, dough bread and sandwiches are made with love in their eleven shops located all over the region and in Buenos Aires. Del Viento has the spirit of the Patagonia: tenacious, modern and always delivering a taste of adventure.

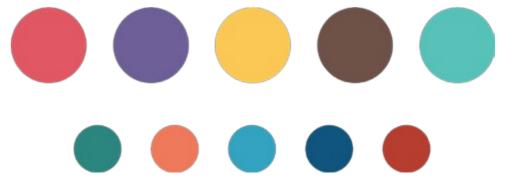

The pathway

Del Viento's mission is to take people back to the origins of cooking and awaken their senses through a range of flavours, fragrances and textures. The sustainably grown natural ingredients, free of artificial preservatives, deliver fresh sensations to those whose dreams take them to the south of the world.
